

Grain & Seed Reliability

Safety, Purity & Possibility

Glanbia Nutritionals provides the purest and safest Grain & Seed ingredients on the market. We lead the way in quality assurance, seed selection and supply chain management to provide the highest standards that keep your products at the forefront of healthy nutrition.

Our Pledge to Safety and Quality Provides Assurance to Your Customers

Our Safety Control Measures provide the highest purity level in the market with the lowest micro levels in the industry. From our supply chain to our processing plant we implement tracking and control measures to ensure our Grain & Seed solutions meet the highest levels of quality and safety.

Seed Selection Purity

We provide the highest purity level in industry

MeadowPure™, our patented seed selection and sorting process, provides unsurpassed purity and stability, and ensures our flax and chia seeds are the purest on the market. Our flax seed is a minimum of 99.95% pure compared to the industry standard of 99.90% and our chia is a minimum of 99.97% pure versus 99.90% for other seed suppliers. MeadowPure guarantees longer shelf life and a superior clean flavor.

Safety and Assurance

We ensure the lowest micro levels available

MicroSure™ Plus, our proprietary third party validated 5-log guaranteed heat treatment, provides safety and assurance to protect your customers and brand equity. MicroSure Plus ensures food safety, stability, nutrition and great flavor for whole and milled flax, chia and quinoa. Be sure with MicroSure Plus.

State of the Art Processing

We guarantee food safety from the ground up

Using the highest standards for food safety, product quality, biosecurity, and innovation, Glanbia Nutritionals has designed and built the most sophisticated grain processing facility in the industry. Our processing facility exceeds the requirements of the Food Safety Modernization Act and is Certified SQF Level 3. It is slip form constructed and fully enclosed, eliminating access to the elements and risk of contamination from airborne particles and allergens, field debris and pests.

Supply Management Reliability

Our Supply Chain Standards assure the highest quality

We work with reliable partners along the entire supply chain who are as committed to quality as we are. Every supply partner must pass a rigorous selection process, and maintain ongoing reviews to reinforce their commitment to quality. We monitor and certify every aspect our supply chain, from farming and warehousing to processing and shipping, to maintain and guarantee the highest quality. Our strong partnerships with suppliers guarantee a reliable source of ingredients for your products.

See what's possible. Just add Glanbia.
