

Join the Glanbia Team!

Sell Your Colostrum to the World's Largest Producer of Colostrum

Low Labor: Less labor is required to collect colostrum versus standard methods.

Premium Payments: Receive premium payments for postpartum milkings versus standard prices.

Improved Milk Quality: By removing colostrum from the whole milk process, somatic cell counts are reduced, enhancing the quality of the finished milk product.

Become part of the Glanbia Colostrum Network! For more information, email jabylsma@glanbia.com.

What's Included in the Glanbia Fresh Colostrum Program?

Turnkey Installation: Hassle-free installation process that adheres to the highest industry standards.

Custom Engineered Tank: Insulated, chilled, agitated, flexible installation depending on needs, a CIP system to meet or exceed USDA dairy standards, as well as all necessary piping to and from the milking parlor.

Full C.I.P. System and Optional Telemetry Tank Monitoring: For optimal pickups and management of colostrum storage.

Service Commitment: Enjoy on-demand pickups of liquid colostrum by authorized Glanbia personnel, adhering to the highest GMP standards.
